

Lori Boyce

To amend article IV section 2 to strike 9 (which refers to 6 at large officers appointed by the chair) and to strike Article V section 5 number 4.

I would propose this amendment be effective at the election of the chair and officers at the next election.

Reason: Professionally I worked with many non-profits. I was frequently hired by organizations to help them reduce the size of their boards (without offending anyone) because boards that are too big become cumbersome and hard to get work done/decisions made. Normally, organizations work with boards of 15 or less.
